

LUTHER BURBANK HIGH SCHOOL GRAND OPENING SEPTEMBER 23 2011

BEALS
ALLIANCE

The Luther Burbank High School Titans played their first home football game in three years on September 23rd. The stadium was designed by Beals Alliance and made possible by the collaborative team effort of Athletic Director John Heffernan, the coaches, City of Sacramento Council Member Bonnie Pannell, Sacramento City Unified School District, O.C. Jones & Sons General Engineering Contractors and ATI Architects & Engineers. The stadium includes a new synthetic turf field, an all-weather track, a scoreboard, bleacher seating for 2,500, restrooms and a concession stand. John Heffernan was excited about the new season stating to the Sacramento Bee, "We're thrilled to get this stadium. It's changed the look and the dynamic of the campus; a spectacular facility." With team work, we were all able to bring the Titans home!
